

Amendments to the Specification:

On page 69, please replace the paragraph beginning on line 14 with the following amended paragraph:

The aqueous ammonia solution reservoir 3 also has, at the outside thereof, an ammonia gas supplier 63 for filling the reservoir 3 with ammonia gas. The ammonia gas (feeder) supplier 63 communicates with an ammonia gas-supplying ~~outlet~~ inlet 64 that is arranged on the sidewall of the reservoir 3, and fills the space over the aqueous ammonia solution with the reservoir 3 with ammonia gas. The ammonia gas-supplying ~~outlet~~ inlet 64 is located above the surface of the aqueous ammonia solution.
